

GRAVITATIONAL EFFECTS FROM ASSHOLES

A person of sufficient assholery generates a gravitational field that affects those nearby in very specific ways...

TIME WARP

Time slows down the longer you are within the vicinity of an asshole, making minutes seem like days, days seem like years.

OPPOSING PULL

The closer you are to an asshole, the greater their force of attraction acting upon you and the more difficult it is to escape.

GASEOUS LIGHTING

An otherwise straight beam of light curves when near an asshole, placing into question what you see and allowing the asshole to obscure and manipulate reality and truth.
